

# CS Interface Pad 150mm 25 holes

V01  
05/2019

## Interface Pad

### :: CHARACTERISTIC

The Carsystem Interface Pads 150mm 25 holes provide the perfect surface adjustment for the sanding disc also to uneven surfaces. Due to its different foam thicknesses of 5mm and 10mm, the aggressiveness and adaptability to curves can be perfectly adjusted. The hole system is based on 15 holes and has been extended with 10 additional holes.

### :: APPLICATION

The Carsystem Interface Pads 150mm 25 holes is perfectly suitable for all sanding operations to achieve a much finer sanding pattern.

### :: PRODUCT DATA

#### Technical data

Dimensions: 150mm  
Holes: 25 holes  
Thickness: IFP 10 = 10mm  
IFP 5 = 5mm

### :: SAFETY ISSUES

The before mentioned technical data and information, especially the recommendations for applying and using our products, are based on our current knowledge and experience when applied under normal conditions. In practice, the materials, surfaces or site conditions are so different that no warranty regarding the working results or liability, arising out of any relationship, can be inferred neither from this information nor from a verbal consultation, expect we are charged with intent or gross negligence. In this case the user is obliged to prove that he has informed us about all points required for a proper and promising judgement in writing, in time and completely. Patent rights of any third party are to be observed. Furthermore, our general sales and delivery terms and conditions and the latest Technical Data Sheet, which should be demanded, apply.

Directions for handling and waste disposal are in our Material Safety Data Sheet and the specifications of the Employers Liability Insurance Association for the chemical industry.
