

:: ProFlex Neptune

Film abrasives - 130 x 170 mm

CHARACTERISTICS

The Carsystem ProFlex Neptune is the perfect abrasive for the most common intermediate sanding steps. It is suitable for matting clear coats, sanding the transition- zones and in P 600 it is an optimal alternative to matting pads.

APPLICATION

- Perfect for dry sanding
- Sanding by hand
- Sanding of primers
- Last step before base coat application
- Matting of clear coats
- Sanding of transition zones
- Extreme fine and uniform sanding pattern

The CS ProFlex Neptune can be processed by hand. We recommend the following additional products:

Surface sanding

- Processing by hand with the CS ProFlex Neptune Pad 154.174

Hard to reach areas:

- Processing by hand with the CS ProFlex Neptune Pad soft 154.175

SAFETY ISSUES

The before mentioned technical data and information, especially the recommendations for applying and using our products, are based on our current knowledge and experience when applied under normal conditions. In practice, the materials, surfaces or site conditions are so different that no warranty regarding the working results or liability, arising out of any relationship, can be inferred neither from this information nor from a verbal consultation, except we are charged with intent or gross negligence. In this case the user is obliged to prove that he has informed us about all points required for a proper and promising judgement in writing, in time and completely. Patent rights of any third party are to be observed. Furthermore, our general sales and delivery Terms and Conditions and the latest Technical Data Sheet, which should be demanded, apply.

Directions for handling and waste disposal are in our Security Safety Data Sheet and the specifications of the Employers Liability Insurance Association for the chemical industry.
