

:: UV Brille

UV safety glasses

CHARACTERISTICS

The Carsystem UV Glasses are used to protect the eyes from UV rays. The built in PVC nose piece provides more comfort and stability which also offers the possibility to adjust the size.

Due to the low profile tension control temples there is an extra grip and is therefore suitable for use with hearing protection.

PRODUCT DATA

Lens thickness: 2,2 mm

Lens base: 9 mm curve

Lens size (vertical): 43 mm

Lens size (diagonal): 85 mm

Bridge: 15 mm

Temple length: 152 mm

UV Filter: 99,9 %

Weight: 26 g

SAFETY ISSUES

The before mentioned technical data and information, especially the recommendations for applying and using our products, are based on our current knowledge and experience when applied under normal conditions. In practice, the materials, surfaces or site conditions are so different that no warranty regarding the working results or liability, arising out of any relationship, can be inferred neither from this information nor from a verbal consultation, except we are charged with intent or gross negligence. In this case the user is obliged to prove that he has informed us about all points required for a proper and promising judgement in writing, in time and completely. Patent rights of any third party are to be observed.

05/2021

Furthermore, our general sales and delivery Terms and Conditions and the latest Technical Data Sheet, which should be demanded, apply.

Directions for handling and waste disposal are in our Security Safety Data Sheet and the specifications of the Employers Liability Insurance Association for the chemical industry.
