# :: Wax Puck

1

application pad

### **CHARACTERISTICS**

The CS Wax Puck is a high quality foam sponge in the appearance of a puck, which is excellent suitable for applying waxes and polishes. The form provides automatically an optimal grip for the manual and professional application. Quick and effective application by simple circular motions. The CS Wax Puck can be washed out after use and subsequently reused.

## **PRODUCT DATA**

## MATERIAL DATA:

Colour: Black Volume weight??(ISO 845): 35 kg / m<sup>3</sup> Compressive strength??at 65% (ISO 3386/1): 9,0 kPa Elongation (ISO 1798): Min. 70 Tensile strength (ISO 1798): > 150 kPa Height: 48 - 50 mm Diameter: 128 - 130 mm Washable

#### **SAFETY ISSUES**

The before mentioned technical data and information, especially the recommendations for applying and using our products, are based on our current knowledge and experience when applied under normal conditions. In practice, the materials, surfaces or site conditions are so different that no warranty regarding the working results or liability, arising out of any relationship, can be inferred neither from this information nor from a verbal consultation, except we are charged with intent or gross negligence. In this case the user is obliged to prove that he has informed us about all points required for a proper and promising judgement in writing, in time and completely. Patent rights of any third party are to be observed. Furthermore, our general sales and delivery Terms and Conditions and the latest Technical Data Sheet, which should be demanded, apply.

Directions for handling and waste disposal are in our Material Safety Data Sheet and the specifications of the Employers Liability Insurance Association for the chemical industry.
