

OUR MULTI *CHANGERS*

For a better process reliability due to the *colour change* during the curing time.

MULTI BLUE *CHANGER*

Polyester-multifunctional putty

BENEFITS

- Colour change during the curing time from **BLUE** to **GREY**:

BLUE → GREY

- Very easy to apply due to its creamy consistency
- Multi adhesion

Art.-No.: 157.623

MULTI GREEN *CHANGER*

Polyester-multifunctional putty

BENEFITS

- Colour change during the curing time from **GREEN** to **YELLOW**:

GREEN → YELLOW

- Reduced surface moisture after curing
- Good balance between being semi-solid and creamy
- Multi adhesion

Art.-No.: 157.622

MULTI FUNCTIONAL ADHESION
